Academic Positions

Feb 2020 – present	Marie Skłodowska-Curie Fellow (Postdoc) TU München (DE) and EPFL Lausanne (CH)
Jan 2019 – Jan 2020	Visiting Assistant Professor and Director of Outreach The Ohio State University (OSU), Columbus, Ohio (US)
May 2018 – Dec 2018	Lecturer The Ohio State University, Columbus, Ohio (US)
Aug 2017 – May 2018	Visiting Research Scholar The Ohio State University, Columbus, Ohio (US)
Autumn 2016	Visiting Research Scholar ICERM, Brown University, Providence, Rhode Island (US)
Spring 2014	Fulltime Lecturer Universidad Juárez del Estado de Durango (UJED) (Mx)

Education

May 2018	Ph.D. in Probability and Statistics Centro de Investigación en Matemáticas, A.C. (CIMAT), Guanajuato (Mx) Thesis advisors: Prof. Víctor Pérez-Abreu, CIMAT (Mx) Prof. Matthew Kahle, OSU (US)
Jan 2014	M.S. in Mathematics Centro de Investigación en Matemáticas, A.C. (CIMAT), Guanajuato (Mx)
Aug 2010	B.S. in Mathematics Universidad de Guanajuato, Guanajuato (Mx) Thesis Advisor: Prof. Daniel Hernández Hernández, CIMAT (Mx)
Summer 2004	Science Summer School 2004 University of Cambridge, Cambridge (UK)

Fellowships, Grants & Awards

Feb 2020 – Apr 2022	Marie Skłodowska-Curie Fellowship , EuroTechPostdoc Programme, European Union's Horizon 2020 research and innovation programme
2021	MAA Dolciani Mathematics Enrichment Grant 2021 (for the OSU Beyond the Classroom outreach program)
2021	OSU Development Grant (for developing the Service Learning Course on Recreational Mathematics)

2019	Best Research and Practice Project Award , *Music Math project, EAPRIL 2019
2019	Aranda-Ordaz Prize best Latin-American Ph.D. Thesis in Probability and Statistics, Honorable Mention, Bernoulli Society for Mathematical Statistics and Probability
2019	Sofia Kovalevskaja Prize , Sociedad Matemática Mexicana (Mexican Mathematical Society)
2014 - 2018	CONACYT-Graduate Fellowship (367369), PhD Program, Mexican National Science and Technology Council
2010 - 2012	CONACYT-Graduate Fellowship (302953), Master Program, Mexican National Science and Technology Council
2004 - 2009	CIMAT-Undergraduate Fellowship , full tuition scholarship and monthly stipend CIMAT (Center for Resesarch in Mathematics)

- [First Probability Problem Solving Workshop](#) (Jan 2008)

Advising

Graduate Theses

02. [Anna Krymova](#), M.S. Mathematics in Data Science, Technical University of Munich (May 2021)
Thesis Title: [Topology of the Plaquette Eden Model](#).
During her thesis, she developed the software [Homology and Geometry of the Plaquette Eden Model](#). She is now working as data engineer for [Tekaris GmbH](#).
01. [Ana L. Trujillo N.](#), M.S. in Mathematics, Universidad Autónoma de Zacatecas (Jan 2017)
Thesis Title: [On some parameters of Token Graphs](#).
She is currently studying a Ph.D. program in mathematics at the Center for Research and Advanced Studies of the National Polytechnic Institute, México.

Undergraduate Theses

06. [Christoph Müßig](#), B.S. Mathematics, Technical University of Munich (in progress)
Thesis title: [Developing a Game based on the Art Gallery Problem with Rook and Queen Vision](#)
05. [Iancarlo Espinosa](#), B.S. Mathematics, Universidad de Guanajuato/CIMAT (in progress)
Thesis title: [Topological properties of some discrete geometric stochastic processes and The Game of Life](#).
04. [Froylan Hernandez A.](#), B.S. Philosophy, Universidad de Zacatecas (in progress)
Thesis Title: [Paradox, ambiguity and contradiction in logic systems](#).
03. [Sergio Valles Q.](#), B. S. Applied Math, Universidad Juárez del Estado de Durango (UJED) (Mar 2017)
Thesis Title: [Tessellations generated by interference patterns of mechanical and electromagnetic waves](#).
He is currently studying an M.S. program in statistics at Universidad Juárez del Estado de Durango.
02. [Sergio Fernández O.](#), B.S. Applied Mathematics, UJED (June 2016)
Thesis Title: [Analyzing the Instant Insanity puzzle with graph theory and number theory](#).
01. [Ana L. Trujillo N.](#), B.S. Applied Mathematics, UJED (July 2015)
Thesis Title: [A structural property of planar drawings of graphs that achieve the minimum crossing number](#).

Outreach & Education

Outreach Projects (founded and co-founded)

05. [Hypothesis](#) (co-founder, project started in Jan 2020)
With the purpose of making mathematics more accessible and universally interesting.
Webpage: <https://hypothesisnyc.org/>
04. [Outreach and Popularization of Mathematics OSU Group](#) (founder, started in Dec 2018)
The group is formed by undergraduate students, graduate students, and faculty to increase and develop the public awareness of mathematics and its relationship with arts, engineering, and other sciences. We design and implement workshops, talks, exhibitions, hands-on activities and other formats of popularization and outreach of mathematics related activities.
Webpage: <https://u.osu.edu/mathoutreach/>
03. [Beyond the Classroom \(BtC\)](#) (founder, started July 2018)
Yearly summer program for unrepresented minorities in STEAM that are middle- and high-school students who want to explore mathematics and programming beyond their high school programs. *Jointly supported by the Math Department and STEAM Factory.*
Webpage: <https://u.osu.edu/mathoutreach/btc/>
02. [Music Math](#) (co-founder, project started in 2013)
Learning Math and Music together. The Project has been implemented in elementary and middle schools in México, Serbia, and Estonia.
This project received the EAPRIL award 2019.*
Webpage: <https://musicmath.mx/en/home>
01. [Matemorfosis](#) (co-founder, project started in 2011)
Each year, thousands of Mexicans experience the excitement of mathematics thanks to Matemorfosis. Outreach initiative of Center for Research in Mathematics (CIMAT), México.
This year: 10th Anniversary!

Outreach Workshops, Talks and Exhibitions (selected)

- o [Music Math Methodology: Fractions Ensemble - Workshop for Teachers](#)

Coding, CAD, and Dital Art Projects

I use coding in my research, for computational experiments, simulations, data analysis, mathematical modelling, and also for art related projects, game development, and as an educational and outreach resource.

Coding Skills: SAGE, Python, R, Matlab, Sonic-Pi, C#, Java, JavaS, HTML, CSS

Note: Software development for research can be found under: Publications & Preprints > Software

App Development

----- [Java, JavaS, HTML, CSS]

- Polyominoes with Maximally many Holes
- Topology and Geometry of the Eden Growth Model

Microcontrollers & Internet of Things

----- [Arduino, Raspberry Pi, micro:bit, Gamebuino]

- [Logic gates workshop](#): designed and implemented a workshop for undergraduate students using electronic gadgets
given at:
 - Fundamentals of Higher Mathematics course (3345) for students, OSU (Jan 2018)
 - Training sessions for the National Logic Olympiad at Universidad Autonoma de Zacatecas, México (2016 and 2017)

Game Development & Digital Arts

----- [Unity (coding in C#)]

- o "Broken Brecht" Film, directed and produced by [Caroline Kapp](#) and Manon Haase, for the Brechtfestival Augsburg, Germany (Mar 2021)

My first game with Unity was developed for the Film.

- o [Art Gallery Problem with Rook and Queen Vision](#)
Bachelor Thesis Christoph Müßig, Technische Universität München (in progress)

Computer-aided Design and 3D Printing

----- [Maya with Python, Marmoset, Blender, Slinder]

- o *Have a look at a selected collection of my 3D models on [Scetchfab!](#)*

Exhibitions and Collections

- o [Curated outreach poster collection](#). Design together with Eric Roldán and the Outreach Initiative team at OSU. Open source: You can download and print the posters for free use [here](#).
